

The Department of Industries and Labour

(The Hazardous Occupations (Cellulose Spraying) Rules, 1937, Under the Factories Act, 1934)

dated the 27th March 1937.

In exercise of the powers conferred by sub-section (4) of section 33 of the Factories Act, 1934 (XXV of 1934) the Governor-General in Council is pleased to make the following rules, the same having been previously published as required by sub-section (1) of section 79 of the said Act, namely:-

RULES.

- 1. Title and application.**- (a) These rules may be called the Hazardous Occupations (Cellulose Spraying) Rules, 1937.
(b) They shall apply to all factories in which the spraying of cellulose ester paints and lacquers is carried on.
- 2. Declaration of operation as hazardous.**- The spraying of cellulose ester paints, or lacquers, is declared to be a hazardous operation when carried on in any factory.
- 3. Prohibition of the employment of children and adolescents.**- No child or adolescent shall be employed in any factory on the operation specified in Rule 2.
- 4. Exhaust draughts.**- An efficient exhaust draught shall be provided by mechanical means for the process specified in Rule 2. The draught shall operate on the vapour given off in the process as near as may be at the point of origin so as to prevent it (as far as practicable under the atmospheric conditions usually prevailing) from escaping into the air of any place in which work is carried on. The draught shall be maintained working for a period of at least five minutes after the cessation of the operation:
Provided that the Chief Inspector of Factories may grant exemption from the provisions of this rule if he is satisfied that due to the casual nature of the operation they are not necessary to secure the health of the workers.
- 5. Position of spray operators.**- Arrangements shall, as far as practicable, be made so as to render it unnecessary for the person operating the spray to be in a position between a ventilating outfit and the article being sprayed.
